## Cold Sports

By: Claire Kim

Winter is a fun time to do sports. Let's see which kinds of sports we can play and what games we can play. First, skiing. Skiing is a popular sport also played in the Winter Olympics. Many young people in Korea ski. They do 4 flips at the same time! Wow! And they're only a few years apart from me! You can ski in Korea, America, and even in Africa.

Now moving on. Hockey is very common in Canada as is Taekwondo in Korea. Hockey comes out in many movies.

Not just Canadian movies, hockey comes out in lots of genres. It comes out in animation, CG, everywhere. When you hear of Canada you will think of hockey first. Hockey is a rough sport so when you see the hockey post in a match it is very beaten up.

Next is curling. The curling stone is made from granite. Curling was first made in Scotland in the early 16th century. Recent gold medalists in curling are the 2022 Beijing gold medal England, silver medal Japan, and bronze medal Sweden. Let's move on to the games. *Page 2*

## What Can We Do in Winter?

By: Woorim Kwon

Now winter is coming! It is getting cold too! Maybe we can see snow! We can have snowball fights too! You should wear a long jacket because it's cold. There will be Christmas and many different events.

We can see ice freezing. We can do many things in winter, such as sledding, eating hot chocolate, baking, snowball fights, ice skating, building forts, making snowmen, going fishing, making gingerbread houses, skiing, and camping. I would like to have snow fights because I can throw things. *Page 3*

We can go to many places such as Nami Island, Vivaldi Park Ski World, Everland, Gangchon Rail Park, and Pyeongchang. I would like to go to Vivaldi Park because I have been there many times.

We can do many things in many places. We can eat many yummy foods in Winter such as cookies, milk, hot chocolate, pie, soup, pancakes, and winter salad. I want to eat soup because I like to eat soup.

We can see many movies in Winter such as Snoopy, Frozen, Ice Age, Home Alone, Wimpy Kid, and Shrek. *Page 3*

## Bagel & Bubble's Christmas

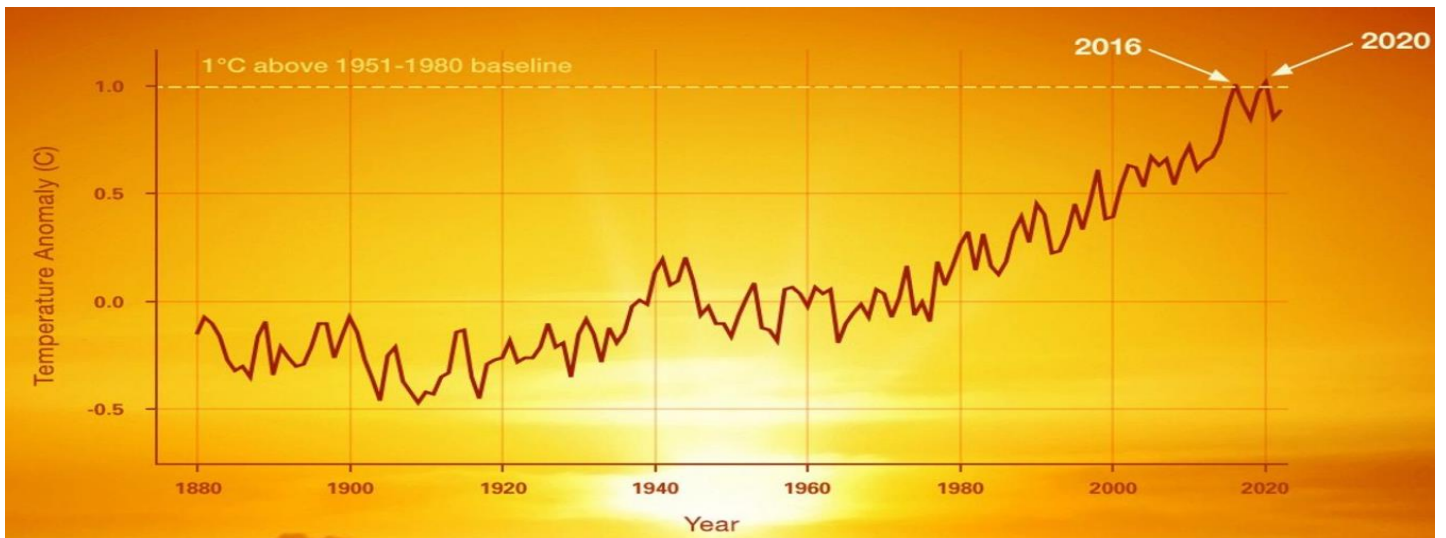

By: Kai Hwang

**How they are in the winter**  
In the winter, Bagel and Bubbles start to sleep together to not feel very cold. We have given them blankets to keep them warm. Bubble has started to stop shedding and he is finally getting his fur back. It seems like Bubble fans are growing every day. I will get them in the winter of 2021. When we got them, they were only one month old. Now they are 3 years old and in bunny age, they are 33 years old. So, you

should talk formally to the bunnies, or the bunny god will be very angry with you. So, in general, they are doing wonderful but they are missing some love so I would appreciate it if you sent some cheerful messages to them!!!

**We will love your sport**  
If you did not know, bunnies are very intelligent animals. They are social animals therefore they live in groups and love to groom each other. Grooming is when an animal licks one another and cleanses each other. So, you have to give them a lot of attention and love, also you can teach them tracks like spinning. *Page 4*

## Global Warming

By: Jino Ryskind

Global warming wants long-term shifts in temperatures & patterns of weather. These twists can be natural, but since the 1800s, people have been the 1st inventors of global warming. Their very first experiment was the burning of fossil fuels (like coal, oil and gas), which makes hot heat-capturing devices.

Since 1880 the temperature has gone up a lot! Above is a graph to show you. After seeing the graph there is a big 1 Celsius difference. You might be thinking "Oh well it is nothing, just in 40 years 1 Celsius is a tiny bit of hotness" Well... you are wrong. Yes, it may sound like a tiny bit of hotness that can't do any harm, but NO.

Because in the old days there was still pollution but very little, now it is like 20 times worse than that time. Even worse with A.I

(artificial intelligence)!

Which means the degrees are going to be like 200% more than 1880-2020 degrees Celsius on earth!! And that is a HUGE change.

### Why I Think It Is Bad:

We are going to die by greenhouse runaways, no food, icebergs melt and flood the earth or suffocate because of no oxygen or...other possibilities.

### Why I Think It Is Good:

There is nothing good about it, it is all down sides

### How I Think We Can Help Stop It from Getting worse:

Easy: don't use A.I, don't make exploding electric cars, buy a car that can last very long, and sometimes use buses for short transportation.

And then maybe someday YOU can save the world.

## Cold Sports

Snowball fights are very fun. Making a snowman and a snow angel is also popular for taking pictures and for creativity. Lastly, if you want to go somewhere fun go strawberry picking, Nami Island, Gyeong-bokgung Palace, and Panda World in Everland, which is going to be themed in a Christmas spirit. And if you want to hear my opinion I would recommend going to Seoul, to do some Christmas crafts.

## New Year

By: Jeeho Lee

In the New Year, we do shows. In Europe they do fireworks. In Korea they dance, and we get money. And we eat tteoggug. 1 year is Earth turning around the Sun. 1 galaxy year is the Solar System turning around the galaxy. (1 galaxy year=200million years)

1 galaxy year is 1 year for the galaxy. In 1 galaxy year, a lot of blue stars are dead. I think 1 universe year is 3000 trillion years. Let's

check the parade. You can see the fireworks when we have good news or our birthday. It is the same thing as when we have a new year. In China, Chinese do fireworks and have a dance. And I know the yummy recipe! First, slice meat half of the 1cm (meat=beef)

And pour rice. Like a taco! And have a good time eating! Everyone likes the new year. A lot of countries have shows. To be honest I never enjoy the show I'm just watching them on tv.

## What Can We Do in Winter?

I want to see Snoopy because Snoopy is cute.

We have many books to read too!!! We can read Snow Child, Harry Potter, books about snow, and Piggy and Gerald.

The good things about winter are we can have snow fights, eat a lot of stuff, stay longer in the house, and there are many events.

We can do many things in winter like this.

## Best Winter Dessert: Pinecone Cookies

By: Jane Choi

Pinecone cookies could be awesome desserts for winter. To make pinecone cookies, you can follow these steps.

1. First, you should get ready with clean hands, chocolate flavored cereal, two big bowls, a spoon, milk, and chocolate muffin (any kind of chocolate bread is okay.) and you will use a microwave too.
2. Put the muffin and some milk in a bowl together and put it in the microwave for 30 seconds. Be careful not to put in too much milk. It will make your paste soft, and it will make you hard to shape.
3. After you remove it from the microwave, mash it to make a smooth paste. But it should not be so smooth because it will be hard to shape it later.

4. Shape the paste like a triangle, but not to make it too sharp like a perfect triangle.

5. You can put chocolate cereals on the paste to make it look more like pinecones. If you would like to make a different dessert too, you can buy whipped cream and green food coloring and add those together to make a tree leaf color. Then add it to the paste to make it like a Christmas tree.

6. When you are done making the pinecones, be careful to not to split them in half.

7. Lastly, the best part is you can enjoy it and have fun.

8. Was it nice enough? I hope you have a good day and good memories of making this dessert! Thank you. I hope you enjoy reading or baking. Merry Christmas

## How to Make Christmas Tree Cupcakes

1. Put the icing scoop on the cookie.
  2. Put three M&Ms on the icing & cookie (M&Ms for the button of the snowman).
  3. Make a face of the snowman with the marshmallow, two pieces of (very) small chocolates, and a pretzel stick.
  4. Put the decorated face on the icing & cookie
- Enjoy your meal and have a great Christmas!
